

INDUSTRY PARTNER PROSPECTUS

Updated August 2025

The Outpatient Endovascular and Interventional Society (OEIS) values the relationships it has with our many industry partners. The support provided by these industry partners provides a solid foundation for the development and implementation of important OEIS initiatives and programs. In order to recognize and strengthen these relationships, these OEIS Partnership Opportunities were created. Intended for those companies that have demonstrated their ongoing commitment to OEIS, these opportunities serve as a forum to explore exciting new opportunities to work together, share information, learn about industry trends, and discuss strategies to achieve our mutual goals.

The Industry Partnership Program was developed as a method of supporting OEIS separate from and in addition to Annual Meeting Sponsorship, the details of which are included in our Annual Meeting exhibitor prospectus. Our Industry Partnership Program is by far the most beneficial way of supporting OEIS and is described below.

As an Industry Partner of OEIS, you gain the following:

- Partnership with OEIS - A special relationship that maximizes your exposure to our target audience of vascular surgeons, interventional radiologists, interventional cardiologists, or other specialists involved in office based endovascular procedures.
- Access to OEIS leadership and our membership
- Exposure through high-visibility recognition at our premiere events, programs, and scientific meetings, in our publications and member communications, as well as on our website.

INDUSTRY PARTNERSHIP LEVELS

	1 YEAR PARTNERSHIP	3 YEAR PARTNERSHIP	SAVINGS W/ 3 YR PARTERSHIPS
Platinum	\$150,000/year	\$375,000 (3 year total)	\$75,000
Gold	\$100,000/year	\$250,000 (3 year total)	\$50,000
Silver	\$65,000/year	\$150,000 (3 year total)	\$45,000

We may have opportunities for you to heighten the awareness of your company, product, or service by reaching out to our constituency. OEIS will work closely with you to design the options that best compliment your company's marketing goals.

There are many other opportunities that can be developed to meet your objectives. For more information on becoming an Industry Partner, or to discuss these partnership opportunities in further detail, please contact Julie Patterson at (224) 567-0039 or julie@oeisregistry.com.

BECOME AN INDUSTRY PARTNER

OEIS serves the evolving outpatient endovascular community through advocacy, education, promotion, development, and support. Maximize your exposure to vascular surgeons, interventional radiologists, interventional cardiologists, and other specialists involved in office based endovascular procedures.

Make a Difference

The support provided by industry partners provides a solid foundation for the development and implementation of important OEIS initiatives and programs, and ultimately leads to better patient care. OEIS greatly values its relationships with its industry partners.

Being involved and engaged as an industry partner will maximize the return on your investment. Marketing opportunities put you in the forefront year-round and span the annual meeting, print, and online platforms. Let us share information, learn about industry trends, and work together to achieve goals.

Contact Us

We invite you to contact Julie Patterson at (224) 567-0039 or julie@oeisregistry.com to learn more about these or custom partnership opportunities.

As partnership implies a mutual support between partners, OEIS offers the following added value to the industry partners in recognition of their support of OEIS.
